GENERAL MEETING

Meet VMS, Inc. CEO Jeff Parker

Learn about his vision
for Laguna Woods Village

Thursday, January 16, 2020

6:30 pm Snacks/Socializing, 7 pm Program

Jeff Parker has been at Laguna Woods Village as CEO/President of Village Management Services Inc., since last February. "I have a clear understanding of what you do here," he says, "and I support you all."

Come to our January 16 meeting and learn more about Mr. Parker's long-term vision for the Village — "to continue building a foundation of quality services provided to residents in the most efficient and effective manner."

"I want to guide VMS through its continued growth as a first-class service organization with the best and brightest individuals and have fun doing it," he states, adding, "I believe if we work hard, respect each other, and have fun, we will achieve success. Please stop by and say 'Hi.' I have an open-door policy."

After graduating from the University of California, Santa Barbara, Mr. Parker, found his calling during his California State University, Long Beach graduate studies. Delving deeply into his interest in government, he earned a Master of Public Administration.

Previously Mr. Parker served as City Manager of the cities of Walnut, Claremont, Patterson, and, most recently, Tustin.

Open free to all Village Residents and their guests in the Video Lab located inside Gate 12 between Clubhouse 2 and the pool.

He was instrumental in the expansion of Claremont Village and the beginning stages of preserving Tustin's air hangers, but it is perhaps his tenure with Walnut that best prepared him to understand and address the issues of an active senior community like Laguna Woods Village.

"I believe my most significant accomplishments while serving Walnut include the city's first and only senior center, which now offers a variety of programs and services for the active aging population, and Dial-a-Cab, which provides city residents discount travel to local retail and education venues, medical facilities, and more," said Mr. Parker.

PRESERVE YOUR MEMORIES FOR FREE!

Video Club Lab Supervisors will help you to convert your old 35 mm slides, VHS tapes, and more to modern digital formats so you can preserve and share them with family and friends.

Open Tuesday-Friday, 1-4 pm, between CH 2 and the Pool.

For information, contact President Steve Carman, steve.carman@mac.com, 424-254-6583.

NEXT MONTH: No General Meeting in February. Plan to attend our 10th Annual Goldies Awards Banquet on Saturday, February 1, in Clubhouse 2. Full information on our website: videocluboflagunawoods.com
