

Hands-on Introduction Video Editing on Your PC

4 Sessions – Starting Saturday, March 7, 2020

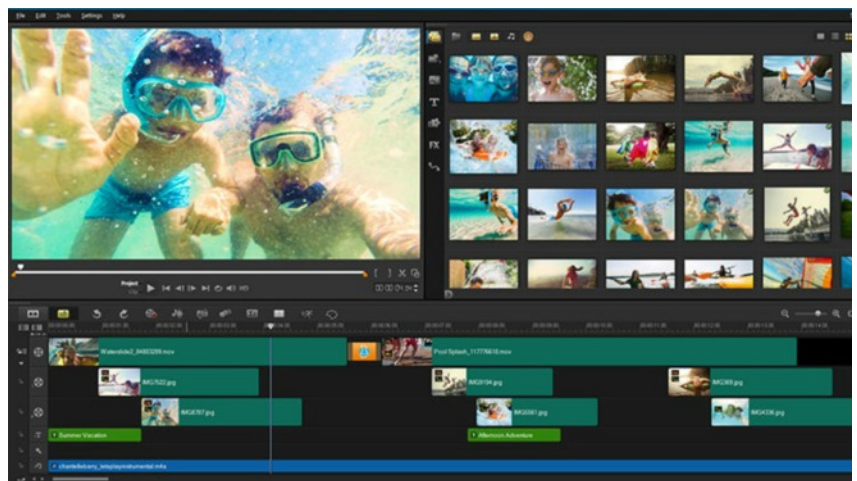

No pre-registration required.

Learn PC Video Editing Using Corel VideoStudio

Taught by Dr. Tom Nash

Saturdays – March 7, 14, 21, 28
10 am-noon in the Video Lab

This class is more in-depth than Dr. Nash's new 2-session Windows 10 video editing class, which starts February 15.

Says Tom: “Your choice: bore your audience with unedited video, put your video clips away and never show them, or learn to edit and amaze your audience! Once you learn the basics in this introductory class using Corel VideoStudio, editing is fun – and your friends and family will love you for it!”

Learn to trim and combine clips, add pans and zooms, create titles and transitions, add music and narration, and much more. Use Video Lab PCs or bring your own PC laptop equipped with VideoStudio X7 or later. **Taking the full four-session class is strongly recommended.** \$20 for members, \$35 for non-members (includes 2020 club membership).
