**Learn Video Editing
Using Corel VideoStudio**

Taught by Dr. Tom Nash

***Probably the Video Club's most essential
class for Windows PC users!***

Says Tom: "Your choice: bore your audience with unedited video, put your video clips away and never show them, or learn to edit and amaze your audience!"

Once you learn the basics in this introductory class using Corel VideoStudio, editing is fun – and your friends and family will love you for it!"

Learn to trim and combine clips, create titles and transitions, add music and narration, and more, using a Video Lab computer or your laptop equipped with VideoStudio X7 or later. Advance registration is not required. \$15 for members, \$30 for non-members (includes 2022 club membership).

Taking the full three-session class is strongly recommended.
